World Statistics Day 20.10.2010

Algeria is planning to celebrate this day through the following events:

- Holding regional meetings (Oran, Setif, Ouargla and Tipaza) , presided by the State Secretary in charge of Statistics and with the participation of the local authorities, on the importance of regional statistics and the launching of Algeria's first Economic Census.
- Holding, on the 20th of October 2010, of an extraordinary session of the National Council for Statistics, with the participation of representatives of the different ministries, producers and users of statistics, in Algiers.
- Organizing statistics open houses, for the general public, on the 20th of October 2010, at the National Office of Statistics and its regional offices.
- Raising awareness through information campaigns about the importance of Algeria's first Economic Census.

- **Holding a national workshop, involving the different sectors - producers and users of statistics-, on sectoral statistics in order to examine the project of the Government's statistics policy (2010-2014).**
- **Holding regional conferences on the importance of statistics.**

All these events will culminate in holding Algeria's National Statistics Conference by the second quarter of 2011.
