

Activities Planned to Mark the World Statistics Day

Taking into account the importance to celebrate the World Statistics Day, the **National Statistical Committee of the Republic of Belarus** is planning to carry out the following activities:

- To hold the scientific and practical conference “*Belarusian Statistics: Yesterday, Today and Tomorrow*” (which will also be confined to the 90th anniversary of the establishment of state statistics bodies in the Republic of Belarus);
- To prepare and to disseminate a booklet about the achievements and perspectives of the development of Belarusian statistics;
- To post banner on the web page of Belstat with a link to the UN Statistical Division as well as other materials to be prepared for the World Statistics Day;
- To place the logo of the World Statistics Day in all official statistical publications 2010;
- To place information on the World Statistics Day in the mass media, including the scientific and practical journal “*Statistics of Belarus*”;
- To organize a Doors Open Day in the central and territorial statistical offices;
- To hold thematic round tables and seminars on the priority directions of statistical development (involving respondents, educational and research institutions, public bodies and other users); and
- To organize congratulations and awards for the personnel of the system of Belstat.
