National Compilation and Reporting Practices (NCDP)
The Trade Statistics Branch of the United Nations Statistics Division has conducted national compilation and reporting practices surveys in 2006 and 1996. They contain metadata, inter alia, on coverage, trade system, commodity classification, valuation, quantity measurement, and partner country.

A summary of the surveys and a comparison between 2006 and 1996 results, as far as possible, are available on the main page: [http://unstats.un.org/unsd/tradereport/introduction_MM.asp](http://unstats.un.org/unsd/tradereport/introduction_MM.asp)

IMF Data Dissemination Standards GDDS-SDDS on Merchandise Trade
The IMF's data dissemination standards consist of two tiers: the General Data Dissemination System (GDDS), which would apply to all Fund members, and the more advanced Special Data Dissemination Standard (SDDS), for those member countries having or seeking access to international capital markets. In general, a country subscribes to either GDDS or SDDS.

SDDS provides information on Trade Data Coverage, Periodicity, and Timeliness, Access by the Public, Integrity, Quality as well as Contact Persons.
