UNWTO Statistics

The e-unwto is a fully cross-searchable interactive database offering many high-quality UNWTO publications, including books, journals, and statistics in their respective languages. In addition to more than 900 books in English, French, Spanish, Russian, or Arabic, the e-unwto also provides access to a growing number of documents defined as “Gray Literature.”

The latest statistical information and aggregated data on inbound and outbound tourism are conveniently presented within the “Tourism Factbook.”
